RE: *Taking Steps Against Breast Cancer*

Dear Christine:

On behalf of the Central Toronto Unit of the Canadian Cancer Society, I would like to thank you for your generous contributions of complimentary **Fitness & Personal Training Memberships** for the *Taking Steps Against Breast Cancer* event, held on October 2, 2004. Everyone truly enjoyed your enthusiasm and you greatly contributed to the friendly, community atmosphere. We were able to raise over \$21,000 Saturday morning and we could not have done it without you.

Since 1993, the Canadian Cancer Society has dedicated \$65 million to breast cancer-related research. The Society contributes to breast cancer research through scientifically reviewed grants and through its partnership in the Canadian Breast Cancer Research Alliance. In addition, the Society offers important services to breast cancer patients such as reliable information, emotional support, transportation and *Reach to Recovery* kits, and practical support for people at treatment centres and lodges.

Once again, thank you for your important contribution to cancer control. Support from friends like you is helping us succeed in our mission to eradicate cancer and enhance the quality of life of people living with cancer. We look forward to working with you in the future again.

Sincerely,

Stephanie Cleary
Fundraising Coordinator
